

# Release note

## Creating Deals

### Release date: 31 July 2013

As part of the work we're doing (**movida#1265**) to improve Content Deals in Movida we've made some interim changes to the Create Deal page; no functionality has been changed, but hopefully you'll agree the page looks a lot nicer now.

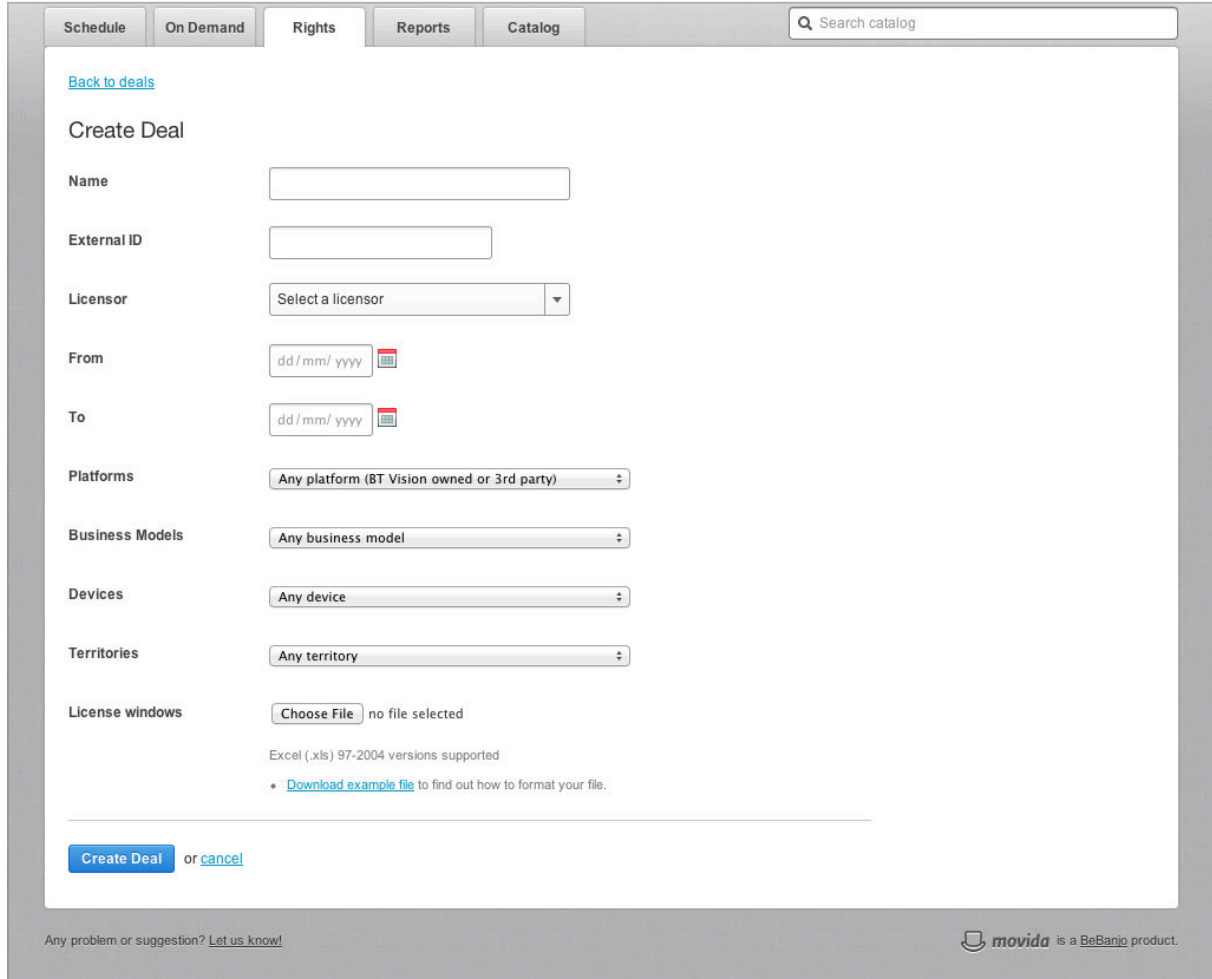

This note describes what has changed in full, and as usual you can contact **support** or your technical account manager for further clarification.

## Create Deal

The look and feel of the **Create Deal** page in Movida has been brought into line with that of the **Catalog** pages, and is the first in step in the improvements being made to Content Deals in Movida.

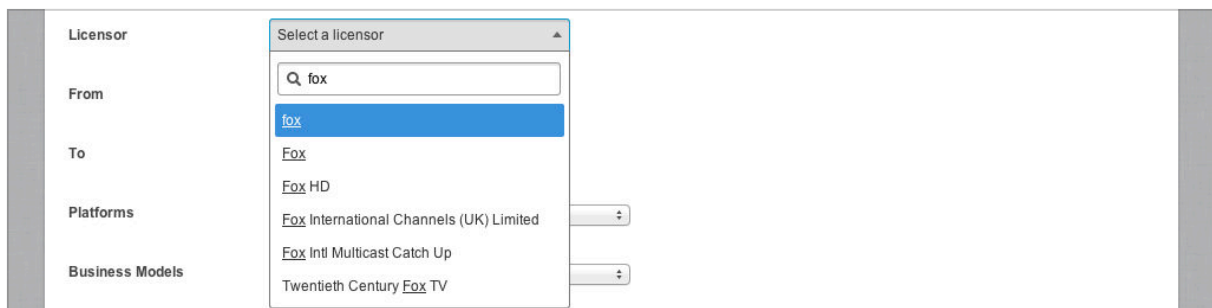

The screenshot shows the 'Create Deal' form with the following fields and options:

- Name:** Text input field.
- External ID:** Text input field.
- Licensor:** Searchable dropdown menu with the text 'Select a licensor'.
- From:** Date input field (dd/mm/yyyy) with a calendar icon.
- To:** Date input field (dd/mm/yyyy) with a calendar icon.
- Platforms:** Dropdown menu with the option 'Any platform (BT Vision owned or 3rd party)'.
- Business Models:** Dropdown menu with the option 'Any business model'.
- Devices:** Dropdown menu with the option 'Any device'.
- Territories:** Dropdown menu with the option 'Any territory'.
- License windows:** File upload area with a 'Choose File' button and the text 'no file selected'. Below it, it says 'Excel (.xls) 97-2004 versions supported' and provides a link to 'Download example file'.

At the bottom of the form, there is a blue 'Create Deal' button and a 'cancel' link. The footer of the page includes the text 'Any problem or suggestion? [Let us know!](#)' and 'movida is a BeBanjo product.'

To help prevent the creation of invalid Licensors, the Licensor field is now a searchable drop down:

This close-up shows the 'Licensor' dropdown menu with the search term 'fox' entered. The dropdown list contains the following items:

- fox (highlighted in blue)
- Fox
- Fox HD
- Fox International Channels (UK) Limited
- Fox Intl Multicast Catch Up
- Twentieth Century Fox TV
