

Release note

Improved filtering in the Work page

Release date: 24 August 2015

Filters are a powerful feature in Sequence, enabling you to drill down into a long list of things to do and focus on your priorities. We've made some changes to improve the Tasks and Tags filter.

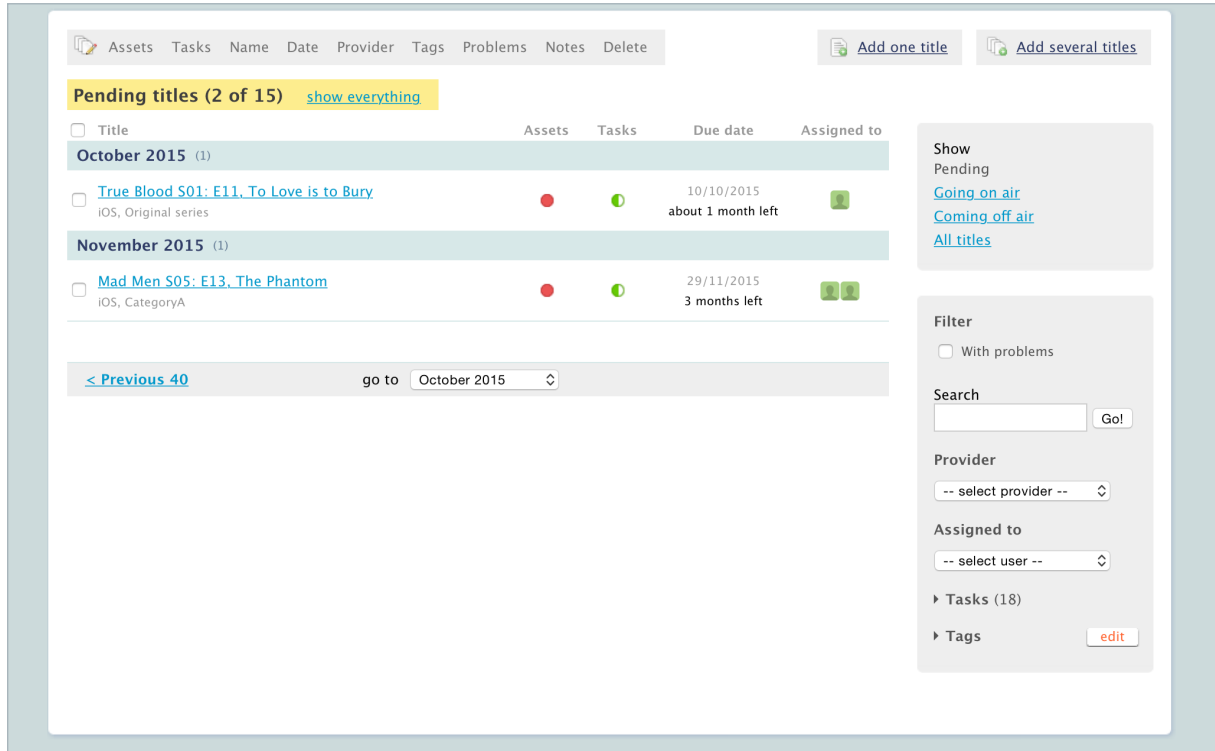

This release note describes what has changed in full, and as usual you can contact [support](#) or your technical account manager for further clarification.

Application	Issue	Title
sequence	659	Collapsible filters in the Work page

Widgets to the rescue

The **Work** page in Sequence lets you filter for workflows in a number of ways; if you have lots of Tasks and Tags then the Filter sidebar would grow very long, leading to lots of scrolling (which gets old very quickly). To help improve this situation the Tasks and Tags filter groups can now be collapsed, like this:

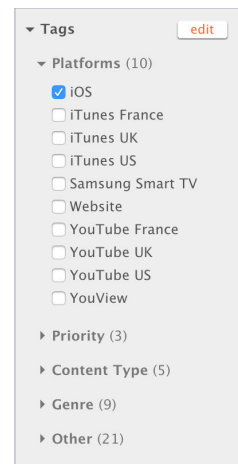

The screenshot shows the 'Pending titles (2 of 15)' section of the Sequence Work page. The table lists titles with columns for Title, Assets, Tasks, Due date, and Assigned to. Two titles are shown: 'True Blood S01: E11. To Love is to Bury' (due 10/10/2015, about 1 month left) and 'Mad Men S05: E13. The Phantom' (due 29/11/2015, 3 months left). The filter sidebar on the right includes sections for 'Show Pending', 'Filter', 'Search', 'Provider', 'Assigned to', and 'Tasks (18)'. The 'Tasks' and 'Tags' sections are collapsed, indicated by a right-pointing arrow and an 'edit' button.

Notice that there's a **disclosure widget** next to the Tasks and Tags groups. Clicking the group name will expand it to show its contents; there's an extra level under Tags for each Tag Group.

Your expansion choices are remembered by Sequence so if, for example, there's Tag Group you never use simply leave it closed and it will never bother you again. *Nifty.*

We have more nice features for Sequence in the pipeline, so keep your peepers peeled!

The screenshot shows the expanded 'Tags' filter sidebar. It includes an 'edit' button and a list of platform tags: 'Platforms (10)' with sub-items like 'iOS' (checked), 'iTunes France', 'iTunes UK', 'iTunes US', 'Samsung Smart TV', 'Website', 'YouTube France', 'YouTube UK', 'YouTube US', and 'YouView'. Other collapsed sections include 'Priority (3)', 'Content Type (5)', 'Genre (9)', and 'Other (21)'.
